User manual

Indoor video intercom station VTC60

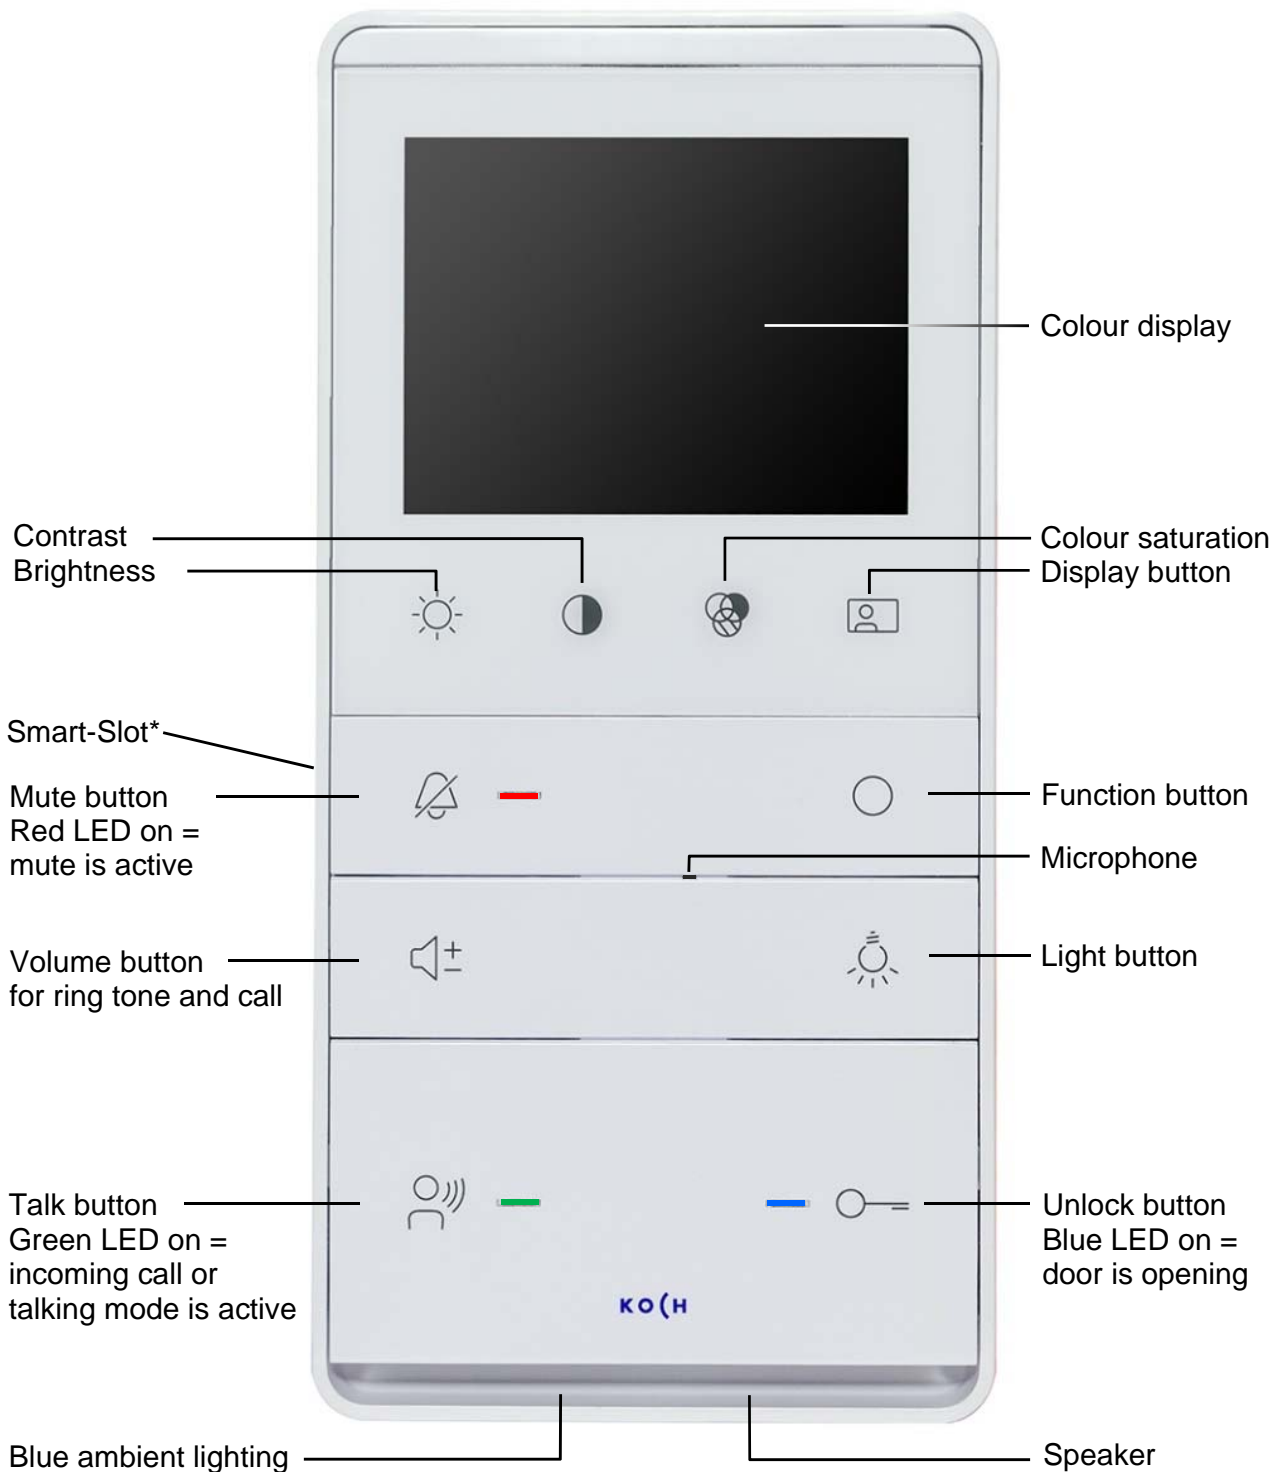

Ring-tones

Ring-tones sound different by calls from the entrance, the landing door or for an internal call.
The green LED lights up for 1 minute when there is a call by one of these sources.
The image is automatically displayed when there is a call at the door.

Instructions for use

Answer a call	• Press the *talk button* briefly; you now can talk without the need for any further action (hands-free)
	• If the talk button is pressed for more than 1 sec. the unit switches to *Press-to-talk* mode (useful when surrounding noise is disturbing): press talk button > talk / release talk button > listen
End a call	• Press the *talk button* briefly. Talk mode also turns off automatically after 60 sec. or 4 sec. after the *unlock button* has been pressed.
Unlock the door	• Briefly press the *unlock button*
Turn on/off the door call	• Press the *mute button* briefly: red LED on = door call off
Display image	• Manually: Press the *Display button* briefly Display switches on automatically with call at door
Switch off monitor display	• Display shuts down automatically after 80 sec. or 4 sec. after pressing the *Unlock button* (during talking mode)
Turn on the light	• Press the *light button*
Control function 8 (Setup default)	• Press the *function button*

Settings

Programming the ring tones

1.) Switch on programming mode
- Press the *mute button* for approx. 8 sec until you hear a brief beep
- all the LEDs will light up

2.) Select ring tone
- Select the ring tone by pressing the corresponding *Ring Tone Control button* (see below) until you hear the one you require (the unit stores the last ring tone to be selected)

Ring Tone Control buttons:

Unlock button
- Ring tone setting for the entrance door 1 (AS 0)

Talk button
- Ring tone setting for the entrance door 2 (AS 1-63)

Light button
- Ring tone setting for the landing door

Function button
- Ring tone setting for an internal call

Note
- The ring-tones can be set in succession once the programming mode has been activated

3.) End programming mode
- The programming mode switches off automatically after 8 seconds of no activity
- A beep sounds; the LEDs go out

Setting the volume

Call volume
- during a call, press the *volume button* repeatedly to select the required volume for talking (default: level 3 of 4)

Ring tone volume
- in idle mode, press the *volume button* repeatedly to select the required volume for ring tone (default: level 3 of 4)

Blue ambient light
- press the *light button* for 4 seconds to activate/deactivate

Additional functions

to be programmed by your electrician, e.g.:
- *parallel operation of several indoor intercom station*
- *blocking the ring tone selection*
- *internal conversation, call forwarding, door opener, etc.*

Care

Clean the intercom unit with a dry or slightly damp cloth.
Use a household detergent to remove more stubborn stains.

- ☛ **Prevent any water from entering the unit!**
- ☛ **Do not use any sharp or abrasive cleaning agents!**
